GENERAL REMARKS.

☞ Revenue stamps may be used indiscriminately, except proprietary and playing card stamps. Postage Stamps cannot be used in payment of stamp duties.

It is the duty of the maker of an instrument to affix and cancel the stamp required thereon. If he neglects to do so, the party for whose use it is made may stamp it before it is used; but in no case can it be legally used without a stamp.

When two or more persons join in the execution of an instrument, the stamp to which the instrument is liable under the law may be affixed and canceled by either of them.

No stamp is required on any warrant of attorney accompanying a bond or note when such bond or note has affixed thereto the stamp or stamps denoting the duty required; and whenever any bond or note is secured by mortgage, but one stamp duty is required on such papers, such stamp duty being the highest rate required for such instruments, or either of them. In such case, a note or memorandum of the value or denomination of the stamp affixed should be made upon the margin or in the acknowledgment of the instrument which is not stamped.

When more than one signature is affixed to the same paper, the required duty may be paid by one stamp.

Penalties for violation of these Stamp Duties are enforced as the law directs.
